AMENDMENTS TO THE SPECIFICATION

Please replace the last partial paragraph on page 29 of Applicants' specification, with the following paragraph:

Referring back to FIG. 1, the server browser 110 has a Cascading Style Sheet (CSS) processor for supporting cascading style sheets. Cascading Style Sheets is now an industry standard developed and promoted by W3C (www.w3.org/Style) (~~www.w3.org/Style~~) and supported by many of today's desktop browsers such as Internet Explorer. It defines a simple mechanism for adding style (e.g. fonts, colors, spacing) to Web documents that describes how the document should be presented on the screen. By attaching style sheets to structured documents on the Web (e.g. HTML), authors and readers can influence the presentation of documents without sacrificing device-independence or adding new HTML tags. The ~~CCS~~ CSS processor can apply elements of style specified in the content
